GitHub: github.com/jamesadewara | LinkedIn: linkedin.com/in/james-adewara | Portfolio: jamesadewara.github.io

## Professional Summary

Passionate computer science student with a strong foundation in full-stack development and a growing interest in applied research. Skilled in building scalable, secure, and efficient systems using React, Next.js, Django, and Flutter. Experienced in automation and cloud-native solutions, and currently pursuing a BSc in Computer Science at the University of Ilorin (2026). Enthusiastic about exploring data-driven research and innovative software applications through practical experimentation.

## Technical Skills

Python, C++, JavaScript/TypeScript, Dart, Django, React, Next.js, Flutter, Angular, PostgreSQL, MySQL, MongoDB, Docker, Git, AWS (basic), REST APIs, GraphQL

## Core Strengths & Certifications

Strength: Front-End Development | Back-End Development | BOT Development  
Certification: AWS Educate – Introduction to Cloud 101

## Key Projects

- Oluwamuyiwa Portfolio Migration – Migrated portfolio site from Vite React to Next.js with Django backend & ISR for SEO/performance. [Live: eaoluwamuyiwa.netlify.app]
- Edunovus Global Website – Next.js + TailwindCSS + Django Admin with ISR/SSR for cost reduction & fast rendering. [Live: edunovusglobal.com]
- Sales Page Automation – Built sales site with Paystack integration & Telegram bot automation. [Live: fanciful-cascaron-c30be0.netlify.app]
- Grand Estate Website – Built a static real estate website using Lovable AI for rapid prototyping and layout generation. Applied an optimized prompt strategy to enhance UI/UX efficiency and development speed. [Live: grand-estate.netlify.app]
- Flutter CV2 Camera Plugin – Open-source plugin using OpenCV (C++) for advanced camera features. [GitHub: flutter\_cv2\_camera]

## Experience

- Cloud 9 Agency – Full Stack Developer (Jul 2025)
  - Built scalable website with robust backend.
  - Managed paid-user records & automated email campaigns.
  - Developed Telegram bot to boost engagement.
- Vyntra.ng – Volunteer Mobile & Backend Dev (2025)
  - Contributing to Flutter mobile app using Clean Architecture Feature-Based Architecture.
- Local Freelancing (Present)
  - Delivered websites, automation workflows (Python scripts, Telegram bots), and payment integrations (Paystack).
  - Built scalable Django & Flutter apps with REST/GraphQL.

## Education

BSc Computer Science (In Progress) – University of Ilorin, Nigeria | Expected 2026

## Achievements

Recognized for excellence in mathematics & programming; Mentored peers in programming & technology.
